

## Meet Dr. Goldstein in Berlin

August 24, 2018

## THE SURESMILE PRACTICE - BRINGING TOGETHER SPEED, ESTHETICS AND QUALITY

Digital technology is changing everything in the practice of orthodontics. From 3D printers to CAD/CAM software, from integrated work flows to case planning and management, it's a new world of greater efficiencies and unparalleled accuracy.

suresmile's dynamic digital treatment system gives you the ability to visualize, plan and treat patients like never before. In this half-day seminar, Dr. Bruce Goldstein (Scottsdale, USA) will demonstrate how suresmile orthodontists approach case planning – often involving combination therapeutics – to achieve consistently superior outcomes, leading to long-lasting results.

Dr. Goldstein will also explore practice differentiation via 3D diagnostics, 3D simulations, alveolar bone modeling, aligner design and orthognathic surgery – all derived from one powerful technology: suresmile.

**Join Dr. Goldstein's 'The suresmile Practice - Bringing together Speed, Esthetics and Quality' course followed by evening dinner.**

**REGISTER  
TODAY**

**Early bird until  
May 31, 2018.**

\*until May 31, 2018

**Bruce Goldstein, DDS, MS**  
**Orthodontic Specialist**

Scottsdale, AZ

Dr. Goldstein is a clinical instructor in the Post-Graduate Orthodontic Department at the Arizona School of Dentistry and Oral Health. Dr. Goldstein is the Treasurer for Council of the College of Diplomates for the American Board of Orthodontics. He was the first orthodontist in the state of Arizona to offer suresmile to his patients.

Dr. Bruce Goldstein is a national speaker and educator on the newest technology, suresmile. Whether he's lecturing to an audience of 100 doctors and team members or to a classroom of eager dental students, his message is clear; mastering technology equals amazing treatment results.

He shares his experience of how he got his practice to where it is today with: the stories, the challenges and the proven methods to successfully implement technology for optimum patient care.
